## Dear Parents ,

We welcome all our dear students, Parents, visitors to this Red Temple of Learning DAV Pt SR Public School Bhanjanagar, Ganjam Odisha.

DAV Bhanjanagar, being cradled by the mountains and played by the zephyr from Lahorarkhandi, is offering its learners a comprehensive education creating ripples from excellence to experience. We emphasise on experiential Learning. The sky is no more overcast with the burden of academics & achievements. We impart education in meadows of independent thinking and analytical assessment.

We believe in the philosophy of “*Vasudaeva Kutumbakam*” caring and sharing the needs & desires of the child. We are a caring community where students' needs are priority and where ancient vedic culture and modern Western educational values are respected and encouraged to coexist. Our teaching modules aim to provide a challenging academic environment

emphasising learning, as well as social and personal growth.

The development of the school over the past few years has been significant. The new School Building is able to cater the needs of the children. The children are whole time monitored through 32 CCTV cameras installed in the campus. The School has adequate number of teachers respecting teacher student ratio . The curriculum is regularly reviewed under the guidance of DAV CMC New Delhi to ensure that it remains appropriate to the needs of our learners. Our curriculum emphasises the acquisition of knowledge, understanding, critical thinking, and problem-solving abilities for all students. We believe in application of the new knowledge acquired as in our terms every learner is unique and special and that they all have the ability to learn. We believe it is our responsibility as educators to nurture and develop every learner to prepare them for life. Learners are continually encouraged to appreciate our diverse community and to care for others by becoming responsible

citizens, and develop a concern and active respect for the environment & nation in large. In school we transform the young minds to become lifelong learners, as well as help them to be self-directed, realistic, and responsible decision makers when solving problems of life.

We continuously renovate our tools of communication, including giving our parent's access to an interactive website/ class wise what's app page where they can retrieve pertinent information about their children's academic achievement. You are requested to regularly check our website and read about our exciting academic and co-curricular activities. We look forward to serve you and educate your child for a better future over the coming years. Interested parents are encouraged to contact our school and to ask any questions they may have regarding our school and the programmes we offer.

Your hand holding will take us to new heights.....

Children can join us at the age of 3 in LKG. During the term prior to your child starting reception, parents, carers and children are invited into a 'Meet and Greet' session viz **“PRAVESH UTSAV”** with the Teacher and staff. The children will also be invited to 'Stay and Play' sessions to build their confidence and prepare them for starting school. Parents are welcome to telephone and make an appointment through the office staff to come and view our school. Our admission number per class is FORTY.

## LEARNING FOR FUTURE

We believe the destiny is shaped in the classrooms. We don't believe in teaching following a traditional way by lecturing interacting or using the black board. Our teaching methodology is experiential in approach. We make them learn by making them realise what they ought to learn.

## FREE TUTORIAL CLASSES

We understand *“Individual differences”* thus teachers stay after the school hours taking the learning laggards to confidence and teaching them as mother at home. We motivate a child to do better than counting his mistakes.
